Introducing the HP-65

Three Ways to Use the HP-65	5
Onward	10

Section 1: How to Get Started

Power ON	11
Initial Display	11
Keying In and Entering Numbers	12
Simple Arithmetic	14
Manipulating Numbers	22

Section 2: General Operations

Clear Operations	27
Display	28
Negative Numbers	32
Keying In Large and Small Numbers	32
Last X	34
Recalling π	35
Addressable Registers	36

Section 3: Functions

Functions Involving Angles	41
Conversions	48
Functions of X and the Exponential Function (y^x)	49

Section 4: Programming

What Is a Program?	53
Looking at a Program	54
Writing Your Own Program	61
Running the Program	62
Magnetic Cards	63
Editing the Program	64
Branching	70
Conditional Testing	80

Interrupting Your Program	91
Writing Programs to Solve Your Problems	95
Common Mistakes	101

Appendix A: General Information

Accessories	103
Battery Operation	104
Recharging and AC Line Operation	105
Maintenance	106

Appendix B: Additional Operating Information

Automatic Stack Lift	109
Programming Tips	110
Calculating Range	110
Temperature Range	111

Appendix C: Calculator Service

Blank Display	113
Low Power	113
Improper Card Reader/Writer Operation	113
Battery Failure	114
Warranty	115
Shipping Instructions	116
